Dear Mead High School Families,

We are writing to inform you about a recent security incident involving **FinalForms**, the platform we use for student sports registration and compliance. FinalForms has reported that a small number of user accounts experienced unauthorized access. FinalForms promptly investigated and contained the issue. They have assured us that **no student data was lost and no student data remains at risk** as a direct result of this incident.

### **Incident Details specific to Mead School District**

On **May 30, 2025**, FinalForms detected unauthorized access to a single Mead School District Coaches account. We have been informed that this incident was not due to a vulnerability within the FinalForms platform itself. Instead, the unauthorized party gained access using **legitimate login credentials** (email and password combinations) that were previously compromised in *unrelated, external data breaches* (such as Chegg or Yahoo). The credentials used for the FinalForms account matched those obtained from these earlier breaches.
