Re: Notification of a Data Security Incident

Dear Attorney General Ferguson:

We represent James F. Collette DDS & David N. Hamilton DDS PLLC ("Smile Surfers") in connection with a recent incident that may have impacted the personal information of five hundred and thirty-two (532) Washington residents, and provide this notice on behalf of Smile Surfers pursuant to Wash. Rev. Code § 19.255.010. This notice will be supplemented, if necessary, with any new significant facts discovered subsequent to its submission. While Smile Surfers is notifying you of this incident, Smile Surfers does not waive any rights or defenses relating to the incident or this notice, or the applicability of Washington law on personal jurisdiction.

NATURE OF THE SECURITY BREACH OR UNAUTHORIZED USE OR ACCESS

Smile Surfers recently determined that an unauthorized person was able to remotely access the email accounts of one (1) Smile Surfers employee. Upon discovery of the incident, Smile Surfers immediately took action, including changing the email account credentials, enabling multi-factor authentication on all user email accounts, and retaining a leading forensic security firm to investigate and confirm the overall security of its email and computer systems.

On January 3, 2020, Smile Surfers determined that the personal information that was in the account included the name, and for some Washington residents, date of birth, phone number, address, credit card or debit card number and CSV or PIN, driver's license number, and/or certain limited medical information. At this point, Smile Surfers is not aware of any fraud or identity theft to any individual as a result of this incident and cannot confirm if any personal information was actually obtained by an unauthorized party. Nevertheless, because there was an

email account compromise and Smile Surfers cannot isolate exactly what, if any, information may have been obtained, Smile Surfers is notifying all individuals whose personal information could have been accessed.

NUMBER OF WASHINGTON RESIDENTS AFFECTED

The incident is believed to have impacted five hundred and thirty-two (532) Washington residents. Smile Surfers is mailing a notification letter to impacted individuals today, February 14, 2020. The notification letter includes an offer for one (1) year of complimentary credit monitoring and identity theft protection to the individuals whose driver's license number and/or Social Security number were impacted. Enclosed is a sample of the notice letters that are being sent to the impacted residents via first-class United States mail.

STEPS TAKEN RELATING TO THE INCIDENT

Upon learning of the incident, Smile Surfers promptly secured the email account to prevent further access. It also conducted a comprehensive search for any personal information in the impacted email account and retained a leading forensic security firm to investigate and confirm the security of its email and computer systems. Further, Smile Surfers enabled multi-factor authentication on all user email accounts.

Your Social Security number and driver's license number were not impacted in this incident.

Although we are not aware of any instances of fraud or identity theft, we recommend that you review the enclosed information on steps you can take to help protect yourself against the misuse of your information.

We take our responsibility to safeguard personal information seriously and apologize for any inconvenience or concern this incident might cause. Fraud Alerts: You may want to consider placing a fraud alert on your credit report. An initial fraud alert is free and will stay on your credit file for at least one year. The alert informs creditors of possible fraudulent activity within your report and requests that the creditor contact you prior to establishing any new accounts in your name. To place a fraud alert on your credit report, contact any of the three national credit reporting agencies using the contact information listed above. Additional information is available at http://www.annualcreditreport.com.

Credit and Security Freezes: You may have the right to place a credit freeze, also known as a security freeze, on your credit file, so that no new credit can be opened in your name without the use of a PIN number that is issued to you when you initiate the freeze. A credit freeze is designed to prevent potential credit grantors from accessing your credit report without your consent. If you place a credit freeze, potential creditors and other third parties will not be able to get access to your credit report unless you temporarily lift the freeze. Therefore, using a credit freeze may delay your ability to obtain credit. Unlike a fraud alert, you must separately place a credit freeze on your credit file at each credit reporting company. Since the instructions for how to establish a credit freeze differ from state to state, please contact the three major credit reporting companies using the contact information above.

Individuals interacting with credit reporting agencies have rights under the Fair Credit Reporting Act. We encourage you to review your rights under the Fair Credit Reporting Act by visiting www.consumerfinance.gov/f/201504_cfpb_summary_your-rights-under-fcra.pdf, or by requesting information in writing from the Consumer Response Center, Room 130-A, Federal Trade Commission, 600 Pennsylvania Ave. NW, Washington, DC 20580.

<u>lowa Residents:</u> lowa residents can contact the Office of the Attorney general to obtain information about steps to take to avoid identity theft from the lowa Attorney General's office at: Office of the Attorney General of lowa, Hoover State Office Building, 1305 E. Fraud Alerts: You may want to consider placing a fraud alert on your credit report. An initial fraud alert is free and will stay on your credit file for at least one year. The alert informs creditors of possible fraudulent activity within your report and requests that the creditor contact you prior to establishing any new accounts in your name. To place a fraud alert on your credit report, contact any of the three national credit reporting agencies using the contact information listed above. Additional information is available at http://www.annualcreditreport.com.

Credit and Security Freezes: You may have the right to place a credit freeze, also known as a security freeze, on your credit file, so that no new credit can be opened in your name without the use of a PIN number that is issued to you when you initiate the freeze. A credit freeze is designed to prevent potential credit grantors from accessing your credit report without your consent. If you place a credit freeze, potential creditors and other third parties will not be able to get access to your credit report unless you temporarily lift the freeze. Therefore, using a credit freeze may delay your ability to obtain credit. Unlike a fraud alert, you must separately place a credit freeze on your credit file at each credit reporting company. Since the instructions for how to establish a credit freeze differ from state to state, please contact the three major credit reporting companies using the contact information above.

Individuals interacting with credit reporting agencies have rights under the Fair Credit Reporting Act. We encourage you to review your rights under the Fair Credit Reporting Act by visiting www.consumerfinance.gov/f/201504_cfpb_summary_your-rights-under-fcra.pdf, or by requesting information in writing from the Consumer Response Center, Room 130-A, Federal Trade Commission, 600 Pennsylvania Ave. NW, Washington, DC 20580.
